**School ERP, LMS, and K-12 Digital Content**

All Designed to Empower Education

**All-in-One Access  
with a Single Login**

No switching tabs —  
manage, teach, and learn  
effortlessly.

# Why These Products Are Essential for **Schools Today**

In today's fast-paced, tech-driven world, schools need more than just classrooms and chalkboards to succeed. Our School ERP, LMS, and K-12 Digital Content solutions are essential for modern education because they:

01

## Streamline Administration

With ERP, schools can automate admissions, attendance, fee collection, transport, and more — reducing manual workload and human error

## Enable Digital Teaching & Learning

LMS platforms support blended and remote learning with tools for course creation, video lessons, quizzes, and performance tracking.

02

03

## Provide Engaging Curriculum Content

High-quality animated videos and a vast question bank aligned with CBSE and state boards make learning more interactive and effective.

## Improve Transparency & Communication

Keep parents, students, teachers, and school management connected through real-time updates and reporting

04

05

## Stay Future-Ready

As NEP 2020 and digital education initiatives grow, having smart tech infrastructure is no longer optional — it's essential

# Solving What Schools Struggle — All in One Place

Running a school means dealing with different vendors for ERP, LMS, digital content, communication tools, and more. This leads to increased costs, lack of coordination, and technology chaos.

Why manage multiple vendors  
when one can do it all?

When you choose us, you get a complete, integrated solution —  
all from a single trusted provider

- No compatibility issues
- No extra training
- No data silos

# LMS – For digital teaching:

## assignments, quizzes, and performance tracking

Empower your classrooms with our advanced Learning Management System (LMS) designed for seamless digital teaching. From organizing video lessons, quizzes, and assignments to enabling pre-class course creation and real-time student tracking.

### Actions Teachers Can Take

#### Create and Publish Courses

Easily design and upload courses with videos, quizzes, assignments, and resources.

#### Upload and Share Resources

Share a variety of learning materials like PDFs, PPTs, videos, and links.

#### Track Student Progress

Monitor individual student performance, grades, and engagement in real-time.

#### Provide Personalized Feedback

Offer tailored feedback on assignments and assessments to support student growth.

#### Communicate with Students

Send announcements, notifications, and messages directly to students for effective communication.

### Steps Students Can Follow

#### Access Study Materials

View and download video lectures, PDFs, PPTs, and other resources shared by teachers

#### Take Quizzes and Tests

Participate in interactive quizzes, assignments, and exams.

#### Track Progress

Monitor their performance, grades and course completion status in real-time.

#### Submit Assignments

Upload completed assignments directly to the platform for teacher review.

#### Learn at Their Own Pace

Revisit lessons and materials anytime for personalized, flexible learning from anywhere using their smart phone, tablet, or computer.

# K-12 Translating Complexity into Clarity:

Animated lessons, quizzes, and performance tracking for smarter classrooms

Our K-12 digital content makes learning engaging and immersive with 2D and 3D animations. Aligned with curriculum standards, it simplifies complex topics and ensures consistent, structured learning.

## Engaging 5500+ videos

Access 5,500+ expertly crafted concept videos for engaging learning and delivering measurable academic outcomes.

## Extensive Practice Repository

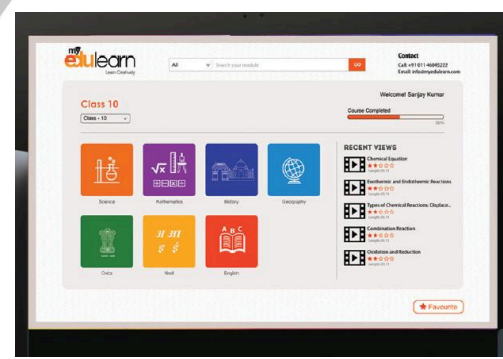

Unlock deeper subject knowledge through 500,000+ expertly curated questions for effective, focused practice.

## Assessment

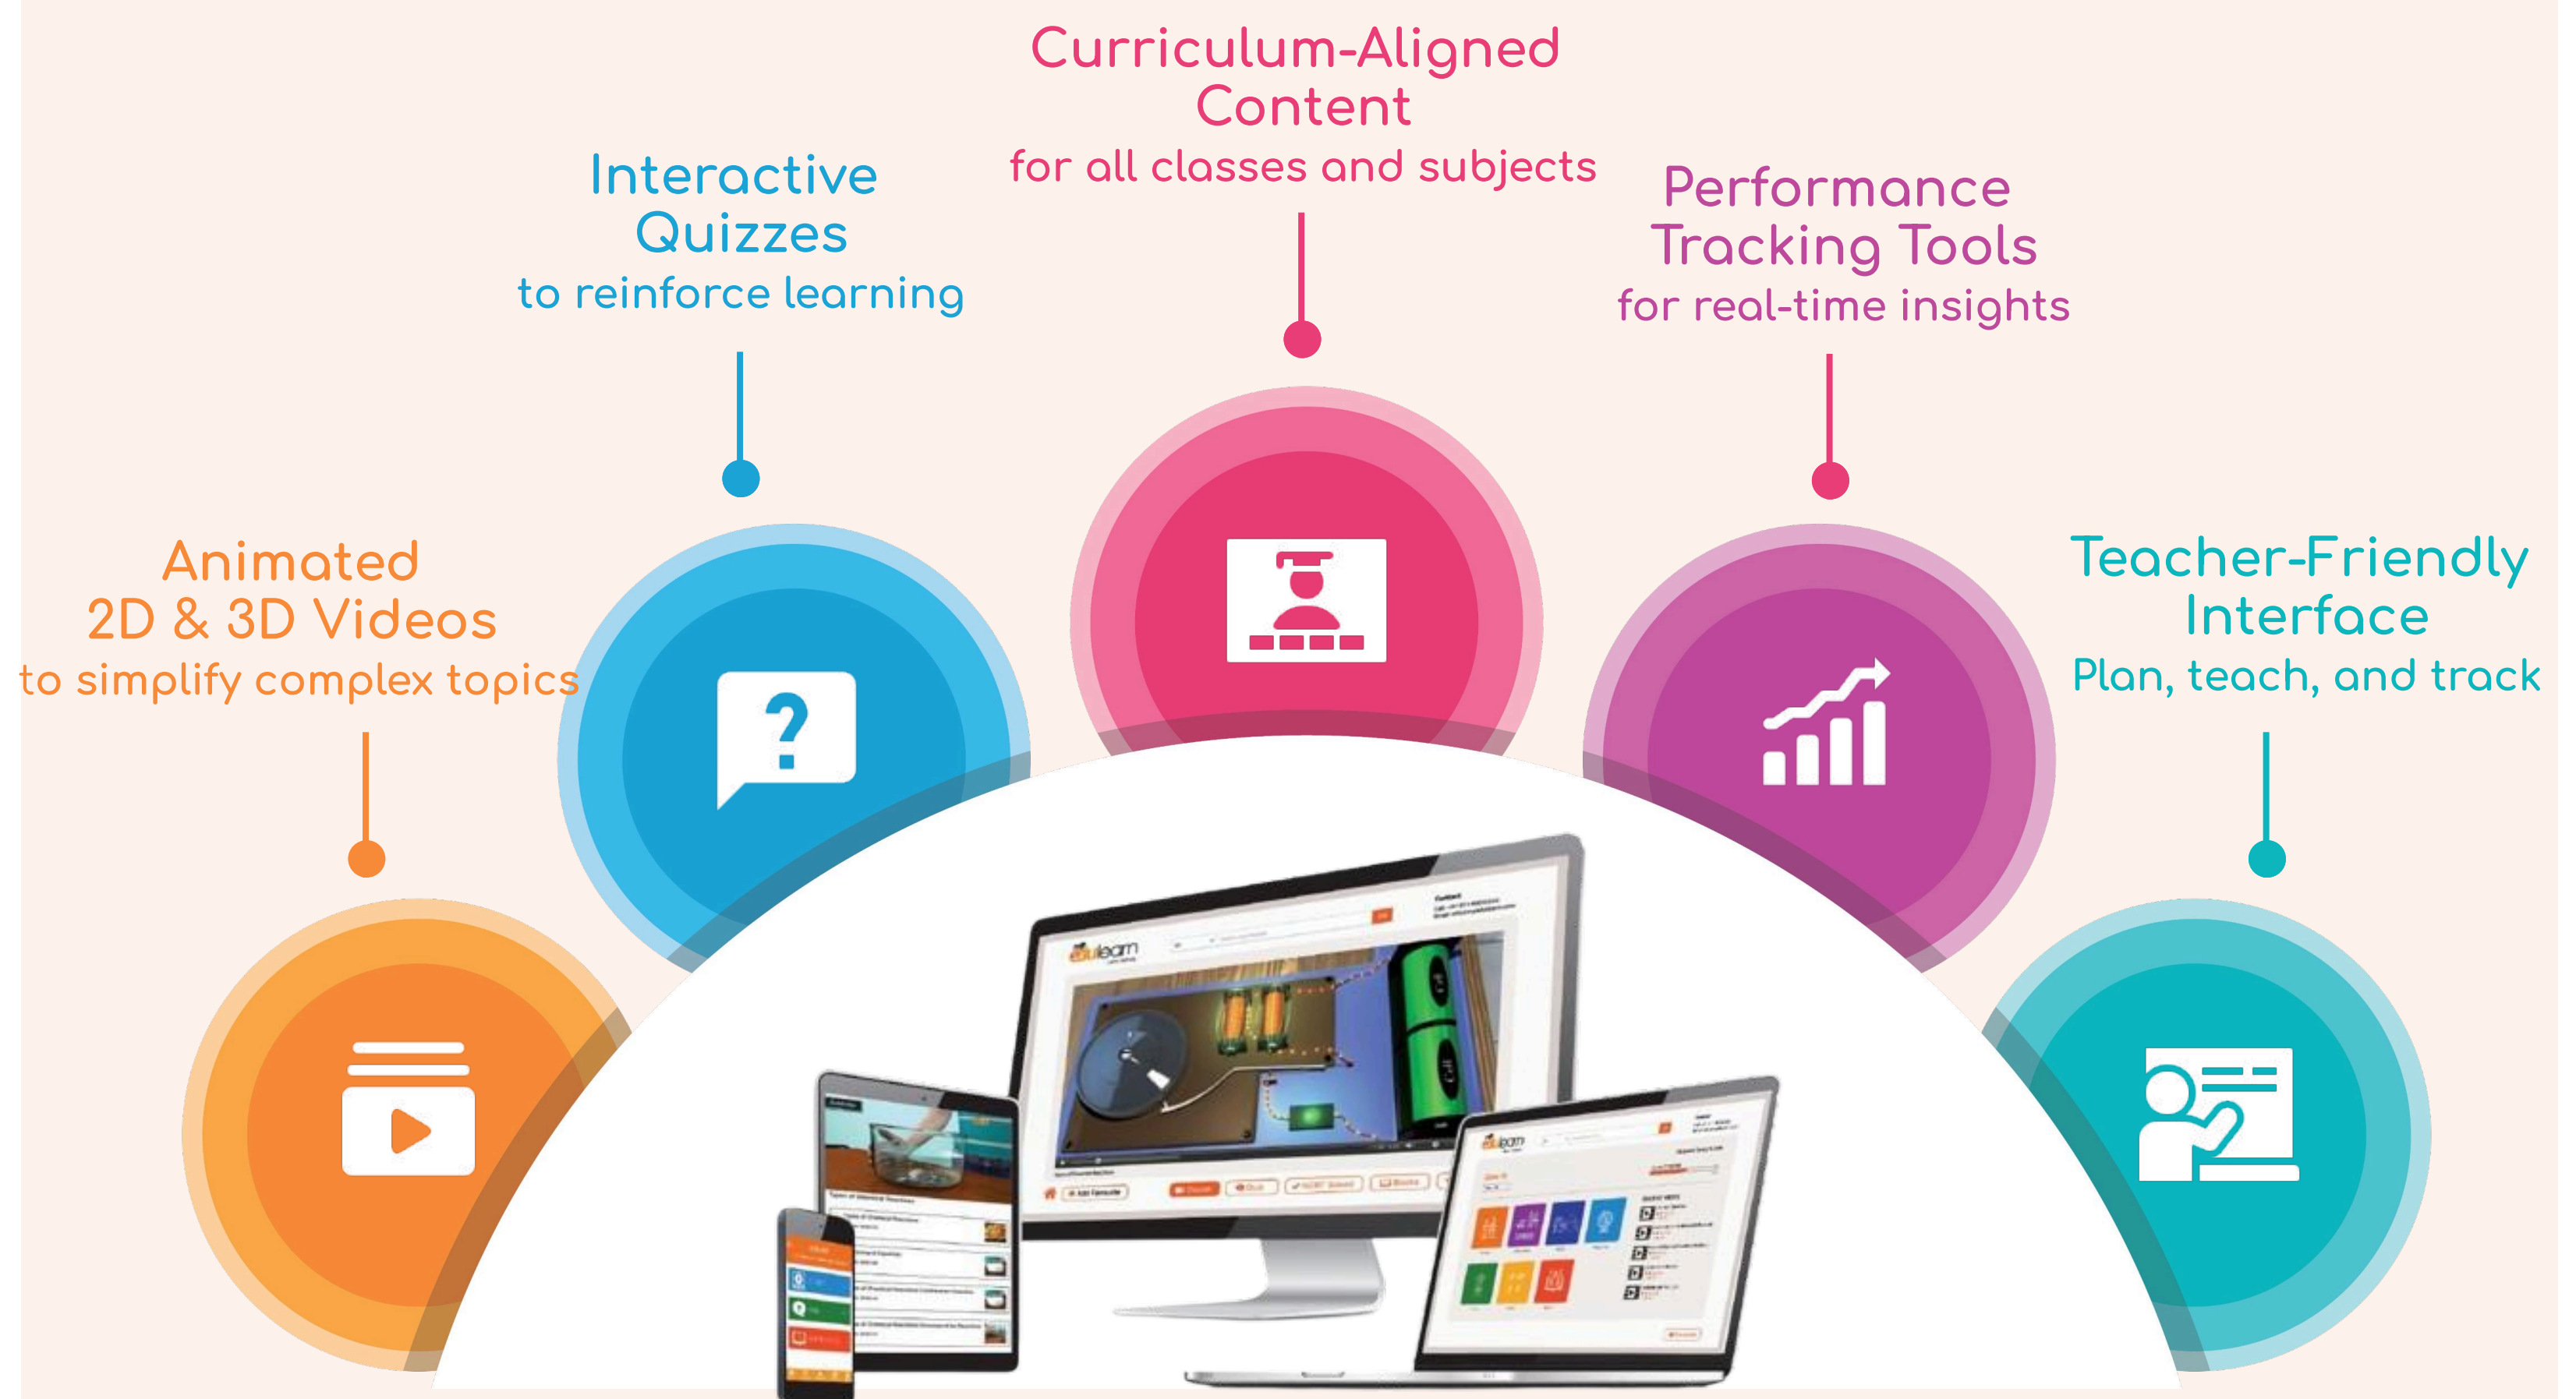

Simplify assessments with powerful tools to create static and adaptive tests tailored to individual learning needs.

## Performance Tracking

Track student performance with real-time analytics, detailed reports, and insights for continuous academic improvement.

Make everyday teaching more powerful and engaging with our complete K-12 solution. Designed for school classrooms, it includes:

# About myEduLeran

Your Ultimate School Digitization Partner

myEduLearn founded in 2012, we are a pioneering EdTech company transforming how schools, coaching institutes, and students approach learning and administration.

Our cutting-edge Learning management System (LMS) and School ERP empower institutions to excel in teaching, learning, and management.

Driven by a passionate team of educators and technologists, we blend technology with traditional learning to create engaging and efficient educational environments. We continuously evolve to meet the dynamic needs of schools, teachers, parents, and students - delivering smarter solutions for a brighter future in education.

## Vision

To be a global leader in education technology, empowering schools and students to thrive in a digital-first world.

## Mission

We strive to bridge the gap between traditional education and modern technology, making learning accessible, engaging, and effective for everyone.

### 13+ Year of Legacy

Over 13 years of excellence in revolutionizing education and management solutions.

### 600+ Partner Schools

Trusted by 600 + schools to redefine education and streamline management.

### Budget-friendly Price

Get top-tier services at unbeatable prices, without compromising quality.

### Dedicated Support

Our unwavering support system is the cornerstone of our success.
